

SIRUBA®

銀箭牌工業用縫紉機

INDUSTRIAL SEWING MACHINE

700King, the King of Overlock Machines

銀箭牌 全新力作
包縫之王, **700KING!**

唯有“**王**”者, 方足以傲視群雄!

700K SERIES

超高速直針式針棒包縫機

Ultra high speed direct type needle bar overlock safety stitch machine.

榮獲多項專利 Earn many patents

超高速直针式针棒包缝机
Ultra high speed direct type needle bar overlock safety stitch machine.

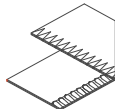

700KD
直驱式超高速直针式针棒包缝机
Direct drive ultra high speed direct type needle bar overlock safety stitch machine.

降低噪音不占空间，并节约40%的电力，大幅提升工作效率
Reduces noise, occupies less space, and saves the power up to 40%, it will improve the work efficiency greatly.

选配件 Optional device

LED灯

具有高亮度、超省电之LED照明装置，体贴使用者在穿线及目视线迹之方便性

LED device with high illumination and power save. Give convenience of threading and observing stitches.

独特的设计 Unique design

强制滤油装置

独特之强制滤油与自动润滑装置

Automatically oiling system with filter pump.

针棒吸油

为防止重要的缝制品沾染污油，增加一回油系统抽取润滑过程中因牵引带出来的油渍。

To prevent from being polluted by the oil sludge, an oil recycle system is added to clean the oil sludge from lubrication.

收线机构

车缝不同布料时，相对改变线的松紧度，微调的收线机构，使缝制品的品质能达到完美。

For different materials, changing the tensions as well. A mechanism for you to do micro adjustment of thread contraction, and improve the quality to perfection.

过线机构

可调整及刻划的设计，轻松完成下勾针前後移动与双链缝勾针前後移动的精确调整

An adjustable design for you to accomplish accurate adjustments in back and forth movements of the lower looper and the looper of double chainstitch.

针棒供油

本机种采全密封式设计，针棒供油系统采取直接给油方式。

An entirely sealed machine with direct oiling solution to oiling system. Directly oiling the needle bar system.

送具防油

在机构增加多层的防油机构达到完全阻油的目的，送具不会因需润滑而将油带出机器外。

Multi-layer oil proof mechanism outside the device can isolate the oil. The feed dog will no longer take the oil out during lubrication.

底部回油装置

针棒机构采循环式强制润滑设计，采取油泵强制真空回油，解决渗油问题。

Actively cycling lubrication of needle bar. Oil vacuum discharge pump. Solve the oil leaking!

700K SERIES

超高速直针式针棒包缝机

Ultra high speed direct type needle bar overlock safety stitch machine.
